

Use this checklist to ensure you include all the appropriate documentation in the referral to the treatment center.

- ☐ Documented ECOG score
- ☐ Medical history, diagnosis, and most recent progress report
- ☐ Pathology report (related to GEP-NET diagnosis)
- ☐ Most recent SSTR-positive PET/CT images to be sent via an imaging transfer site or mail
- ☐ Recent lab work including CMP and baseline CBC with differential
- ☐ As applicable, date of prior treatments (SSA therapy and/or chemotherapy)

Notes:

CBC, complete blood count; CMP, comprehensive metabolic panel; CT, computed tomography; ECOG, Eastern Cooperative Oncology Group; GEP-NET, gastroenteropancreatic neuroendocrine tumor; PET, positron emission tomography; SSA, somatostatin analogue; SSTR, somatostatin receptor.
